

Winter Match COVID Protocol for Visiting Teams

Please be aware of the protocol below before you visit Farnham Common Tennis Club and please comply with all government and LTA guidance associated with COVID-19 (social distancing, hand hygiene and so on) while visiting us.

The safety of all players is our top priority

Before you Arrive

- Please note that all key areas and facilities of the tennis pavilion are regularly cleaned and hand sanitiser is provided.
- We will set the net heights to the correct levels to minimise contact points you will encounter at the club.

When you Arrive

- Hand sanitiser is available in the tennis pavilion for your use before and after play.
- We have no benches or seating available on court – however, you can leave kit outside the pavilion under cover, or inside the pavilion, but everyone should take care to avoid multiple people entering the pavilion at the same time.
- Toilet facilities are available, but our small kitchen will be out of use. Players can, however, use the kitchen tap to fill water bottles if required.
- If scoreboards are used, we will nominate one player in each match to update the scoreboard in order to limit physical contact with it.
- Each court will have a tin of brand-new match balls – we do not anticipate any additional restrictions around these – if this is an issue, please advise us in advance.

During our Match

- We will retain social distancing including ensuring safe changing of ends and avoiding handshakes.

After our Match

- Given all the above, we are currently unable to provide any post-match teas or refreshments. You are of course welcome to bring your own refreshments.

Test and Trace

- The Club will follow LTA guidance regarding NHS Test and Trace guidelines.

We look forward to hosting you safely at Farnham Common Tennis Club.
